Anti-money laundering rules and guidelines have evolved over the years and RL360 Life Insurance Company Limited is required to understand the origin of an investment prior to completing any transactions, such as a withdrawal or assignment. In recent years this data was collected at the new business stage, however, if the investment pre-dates this or if the information we hold is not sufficient based on our understanding of current requirements we must obtain further details before proceeding.

Please provide sufficient information to allow us to understand how you have obtained the premium for your investment. This may not necessarily be the last place it was invested and should detail the origin of the wealth. For example, if you have had the money invested in a deposit account for 5 years but the majority of the investment originally came from a property sale rather than the deposit interest, please provide details of the property sale below. If in doubt you can provide multiple sources. All information collected in this form will remain confidential and secure in accordance with the Isle of Man Data Protection Act 2002.

Please note that evidence of this source must be provided for **non-UK residents**. We reserve the right to request documentary evidence or further information relating to the source of funds if it's considered necessary.
